

Appendix 5

Participation in and presentations to workshops and conferences by ESR and ER (number, names, place, date)

Eugeny Babichev (Paris) attended Workshop "Particle Physics And Cosmology: The Interface", Feb 2008, Warsaw; workshop "Modern ideas in Cosmology", APC Paris, Feb 2008; workshop "Rencontres de Moriond", La Thuile, March 2008.

Diana Battefeld (Helsinki) attended the following scientific meetings: Franco-Japanese workshop at Nikko 2008; Cargese Summer School 2008; COSMO 08 (+talk), SCSC08 Paris; series of theoretical physics conference in string theory and cosmology.

Hael Collins (Copenhagen) attended international workshop Field Theory and Cosmology, Copenhagen, March 2008; workshop on Mathematical Aspects of General Relativity, Copenhagen, April 2008; 12th Paris Cosmology Colloquium, Paris, July 2008.

Paul Hunt (Warsaw) has given talks on his work at three international conferences: the Marie Curie transfer of knowledge workshop, Warsaw, February 2008; Planck, Barcelona, May 2008 and the Dark energy and Dark Matter conference, Lyon, July 2008. As part of his training he has also attended and given talks at the weekly seminars held at the Institute of Theoretical Physics, Warsaw.

Thomas Konstandin (Barcelona) attended the PLANCK08 conference in Barcelona and the conference COSMO08 which was held in August in Madison (Talk "Gravitational wave production by bubble collisions"). He also gave a seminar entitled "Gravitational waves from cosmological first-order phase transitions" at the University of Heidelberg.

Philipp Mertsch (Oxford) attended a summer school in Valencia and visited CERN.

Lotta Mether (Geneva) attended a course on advanced quantum field theory for graduate students at the EPFL in Lausanne, and Progress on Old and New Themes in cosmology (PONT d'Avignon 2008), April 2008, Avignon..

Eun-Kyung Park (Bonn) attended: Focus week on LHC physics, IPMU, Kashiwa, Jun 2008; SUSY08, Seoul, Jun 2008; PLANCK 2008 From the Planck Scale to the Electro Weak Scale, Barcelona, May 2008; Beyond the Standard Model, Bad Honnef and Bonn, Mar 2008; ENTApP (European Network on Theoretical Astroparticle Physics) Dark Matter visitor program, DESY Hamburg, Feb 2008; Symposium on Particle Cosmology, DESY Hamburg, Dec 2007; Transregional Collaborative Research Centre (The Dark Universe), Bad Honnef, Sep 2007.

Narendra Sahu (Lancaster) gave a talk at the "Astroparticle Physics 2008" conference at Oxford, June 2008.

Katarzyna Zuleta (Ioannina) attended and gave a talk on the 4th ToK workshop “Particle Physics and Cosmology”, Warsaw, February 2008; Planck 2008, “From the Planck Scale to the ElectroWeak Scale”, Barcelona, May 2008; NEB XIII, “Recent developments in gravity”, Thessaloniki, June 2008.

Wessel Valkenburg (Annecy) attended “ENTAPP Dark Matter Workshop”, CERN, Geneva, March 2007, “Outstanding questions for the standard cosmological model” Imperial College London, March 2007, and COSMO-07 at University of Sussex, August 2007 – he presented talks in these events, at an invited seminar at the University of Geneva, a presentation at JLAC11 DEC 06 (Geneva) and another one at CERN’s Cosmology Journal Club; summer school: “Cosmology and Particle Physics Beyond the Standard Models”, Aug 2007, Cargese; Rencontre des particules, Jan 2008, Annecy-Le-Vieux; From The Planck Scale To The Electroweak Scale (PLANCK 2008), May 2008, Barcelona; BMC.08. 2nd Benasque workshop on Modern Cosmology. June-Aug 2008, Benasque; 43rd Rencontres De Moriond: Cosmology, Mar 2008, La Thuile.

Anna Kostouki (London) attended the Cargese Summer School in “Cosmology and Particle Physics Beyond the Standard Models” (August 2007); International Workshop in Particle Physics and Cosmology, Olympia (Greece) April 2008; UK Cosmology for graduate students meeting (King’s College London) - June 2008 (talk); QG2 2008 Quantum Geometry and Quantum Gravity Conference- June-July 2008, University of Nottingham; Strings 2008, CERN Geneva, August 2008; Spring School on Superstring Theory and Related Topics, ICTP Trieste, March-April 2008.

I. Ntallanis (Warsaw) attended four international conferences connected with his research and also gave a talk (Planck 2008).
