

UniverseNet

KOREA

Soo-Jong Rey

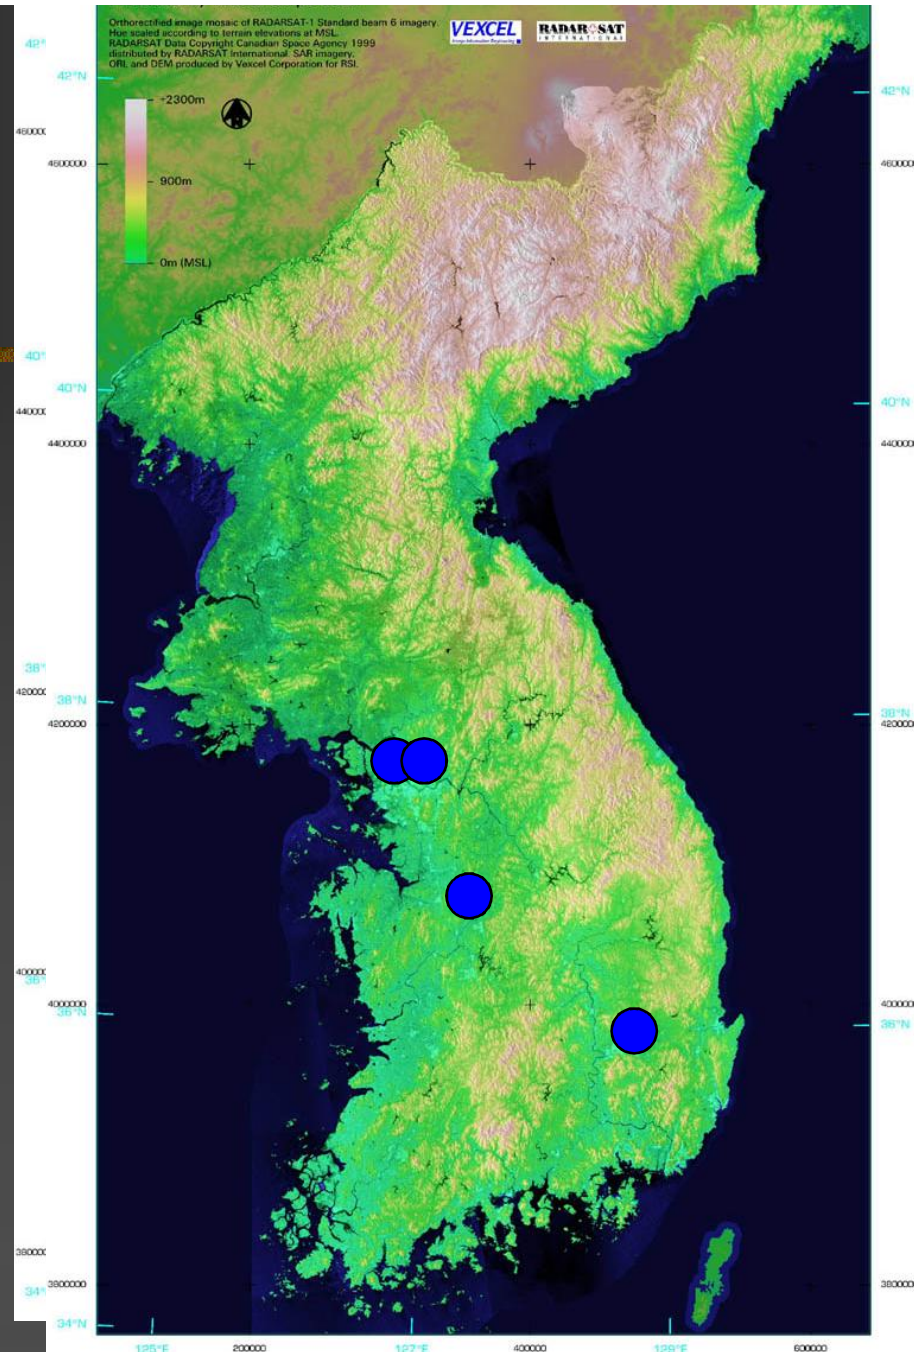

Seoul National University, KOREA

Participants

- Jihn E Kim*, Soo-Jong Rey, Hyungdo Kim
(Seoul National University)
 - Ewan Stewart, Kiwoon Choi
(KAIST)
 - Hyunkyu Lee, Chul-Hoon Lee, Hangbae Kim
(Hanyang University)
 - Jaichan Hwang
(Kyungpook National University)
-

We are here...

'06 – '08 period:
74 papers published

Research Interest

- Astroparticle physics (Kim, Kim, Kim, Lee, Choi)
- Large-scale structure formation (Hwang, Rey)
- Inflationary cosmology (Stewart, Kim, Choi, Rey)
- General relativity issues (Kim, Lee)
- Quantum gravity, string theory (Rey)

Activities and Funding

- Very active domestic and regional meetings
- Excellent human networks exist with particle physics, string theory, astrophysics & numerical relativity
- Strategic center of Far-East (Japan, China, Taiwan)

- '06-'08 individual grants used for UniverseNet
- Korea-EU agreement under progress
- Structured umbrella grant application under progress
- Two-way traffic among young researchers expected
